

## Pitt-Greenville Airport Authority Board Meeting

October 15, 2025

11:00a.m

Pitt-Greenville Airport Conference Room

Board Members present: Dan Mayo, Chairman; Michael Overton, Vice-Chairman; John Banks; Mark Porter; Christopher Nunnally; Craig Goess

Staff members present: Bill Hopper, Executive Director; John Hanna, Operations Manager; April Cannon; Finance & Administration Manager; Cidni Mills, Administrative Assistant

Other attendees included: Dave Silver, Graham Nuckolls Conner Board Attorney; Kyra Vagle, McFarland Johnson; Bob Overby, McFarland Johnson; Jay Talbert, Talbert & Bright

### Public Comment Period

With no one registered to speak, Chairman Mayo closed the Public Forum and called the monthly Airport Authority Board meeting to order.

### Approval of Minutes

Board Minutes from the September 17, 2025 Pitt Greenville Authority Board meeting were emailed to all members to review. Chairman Mayo asked if there were any changes or recommendations to the minutes. With no corrections, a motion to approve the minutes were made by Vice-Chairman Michael Overton seconded by Chris Nunnally

### Executive Director Report

Executive Director Hopper was seeking approval to enter into an agreement with McFarland Johnson, Inc. for the Design & Bidding Services of the North 24 in the amount not to exceed \$465,000. Hopper stated that as required by the NCDOT, Aviation, Pitt Greenville Airport did an Independent Fee Estimate with IFE, LLC, to ensure a fair value in the work. IFE, LLC estimated that NTE value of the work to be \$426,243.50 which is an 8.5% difference. Pitt Greenville Airport conducted an in-depth comparison and determined that the NTE quote from McFarland Johnson is fair. Hopper stated that NCDOT, Aviation grant money will be used for 100% of the work. Motion to approve was made by Mark Porter, seconded by Chris Nunnally motion was unanimous, motion carried, and approved.

Executive Director Hopper gave a report regarding 2 approved purchases that had value over \$2,500.

Limitless Welding & Fabrication in the amount of \$2,750.48 – this was needed to repair a pump on a plow truck in preparation for the winter season. Approval was given by Chairman Mayo on September 17, 2025

East Carolina Collision Center in the amount of \$3,316.98 – this was to repair a personal vehicle of an employee. The vehicle was damaged by another employee operating an aircraft tug and backing into the vehicle. The deductible is \$5,000 so insurance will not cover it. Approval was given by Chairman Mayo on October 3<sup>rd</sup>, 2025

## Federal/State/Local Projects

### Federal/State/Local Projects

#### ➤ Fund 49- General Aviation Terminal – ARFF Renovation, TRDF Grant

- Work Authorization Talbert & Bright signed 7-17-2024
- Designs being reviewed by Engineering and Airport Authority
- IFE Complete
- McFarland Johnson Scope Designs to be sent to Authority Board
- NTE \$79,994

#### ➤ North 24 Project NCDOT Fund 47 (North 24 NCDOT/SCIF)

- Deeds are revised completed June 17, 2024
- NCDOT funding started in December 2022
- 1st Community meeting August 6, 2024
- Community Board Meeting November 14, 2024
- Ward & Smith presenting at City and County Council meetings 2025
- McFarland Johnson/ Environmental 60 days waiting on FAA
- Scope design
- IFE to be complete in October 2025

### Federal/State/Local Projects

#### ➤ Perimeter Fence Replacement- NCDOT/AIG

- Application Submitted
- \$1.1 Mil
- Contract Approval—Perimeter Fence Project—Seegars Fence Co., Inc.
- Work Authorization Approval—McFarland Johnson, Inc
- October 2025 to start project
- FAA for ASP and TSA

## Operations Report

Operations Manager John Hanna introduced Racheal Gliniak as the new Compliance & Training Officer. Racheal gave a Veoci update.

# VEOCI – Quarterly Update

Welcome

Pitt-Greenville Airport  
400 Airport Road  
Greenville, NC 27834

## INVENTORY

### How does it work?

Veoci makes it easy to enter new items and update existing items. Once the items are entered, they can be selected during the work order process to subtract the item from current inventory. Then it can be viewed in the consumed inventory.

# RECORD KEEPING

Pitt-Greenville Airport  
400 Airport Road  
Greenville, NC 27834  
252.902.2025

As you can see, PGV is using VEOCI to track and manage work orders.

- Work Order Status
- Inventory Status
  - Current Inventory Stock
  - Inventory Usage
  - Inventory Purchased/Added
- Total Assets (Inventory organized by category)

We are able to track Asset maintenance, be proactive by establishing a threshold for when inventory is low, and document expenses.

### Operations Report

Operations Manager Hanna stated that due to recent concerns, professional mold testing was conducted in the Airline Ticket Offices and the hallway adjacent to the Sheriff's Office. The results confirmed the presence of mold in both areas, necessitating immediate remediation. Pitt Greenville Airport solicited 3 quotes from licensed mold contractors. After evaluating the proposals, Servpro was identified as the lowest responsive and responsible bidder at the amount of \$11,305. Hanna stated that remediation work will be scheduled after hours to avoid disrupting regular operations. Hanna stated that due to Servpro's competitive pricing, strong reputation, and flexibility with our schedule, Pitt Greenville Airport recommends awarding the contract to Servpro. The Board requested that Hanna bring back options for remediations regarding humidifiers for both areas. A motion to approve was made by Chris Nunnally, seconded by Mark Porter

The Board also asked about quotes regarding the roof leaks. Hanna stated that Pitt Greenville Airport is still waiting on quotes.

Operations Manager Hanna was seeking approval to proceed with the \$22,2854.25 replacement using certified OEM components. In the August 2025 Board meeting a memo was presented for approval to proceed with replacing required airfield signage under FAA Title 14 CFR Part 139. Hanna stated that majority of Pitt Greenville's Airport existing airfield signs were installed in 2017-2018 under the Runway 2-20 & Taxiway A project. While components were warranted for up to 4 years, environmental wear, particularly from southern-facing signage. Has led to significant deterioration. A 7 to 8-year replacement cycle is

standard for this region, and the current signage has reached the end of its service life.

Vendors confirmed that sign panels must be replaced with original equipment manufacturer (OEM) parts to maintain FAA certification, as mixing components voids warranties and compliance. John Hanna stated that the FAA has set a compliance deadline of December 31, 2025. A motion to approve was made by Chris Nunnally, seconded by John Banks motion was unanimous, motion carried, and approved.

Operations Manager John Hanna was seeking approval for a not to exceed amount of \$144,000 to complete any necessary work to address the worn airfield markings and pavement cracks resulting from routine wear and tear. Hanna stated the FAA inspector advised that Pitt Greenville Airport address the worn airfield markings and pavement cracks resulting from routine wear and tear. These deficiencies are considered potential safety risk, particularly concerning foreign object debris (FOD) and possible pilot disorientation. Hanna stated that in response to what the FAA inspector advised, Pitt Greenville Airport solicited quotes from multiple vendors. To date, HI-LITE was the only vendor to submit a proposal. Pitt Greenville Airport has reached out to the NCDOTA and has recently received a list of approved contractors with unit pricing for reference and comparison. Hanna stated that should a qualified, lower cost vendor be identified from the NCDOTA approved list or through other outreach efforts, Pitt Greenville Airport will proceed with the lowest and qualified vendor to ensure cost effective completion of the project. A motion to approve not to exceed

\$144,000 pending receiving 2 additional quotes that include joint seal and rubber removal was made by Mark Porter seconded by Vice-Chairman Michael Overton. Motion was unanimous, motion carried, and approved.

Operations Manager John Hanna was seeking Board approval to enter into a lease agreement with TITAN Aviation Fuels, enabling Pitt Greenville Airport to acquire new aviation refueling equipment.

TITAN proposes leasing 2020-2023 refuelers to Pitt Greenville Airport with TCS digital meters and wireless capability.

- One (1) 5,000-gallon Jet-A Refueler at \$2,800 a month.
- One (1) 1,000-gallon Avgas Refueler at \$900 a month.

TITAN has also included the following benefits as part of a potential 5-year lease agreement:

- First 6 Months Free (Up to \$27,000 value)
- Trade-In Credit (\$10,000 value)
- Loaner Truck Access (\$1000-\$3500 value each occurrence)

This aligns with our fleet replacement schedule:

- Both trucks to be replaced have mandatory maintenance that total between \$8,000-\$12,000.
- This will significantly increase our Jet-A capacity that is needed with an additional demand at PGV.

Operations Manager Hanna stated that for these reasons, Pitt Greenville Airport is proposing Option #2 (Digital Meter Lease) and authorize the proposed 5- year lease agreement with TITAN Aviation Fuels to capture the significant incentives and realize the operational and financial advantages for PGV.

John Banks had asked what was the vision for fueling at North 24, John Banks also stated that he doesn't see a lot of avgas fueling at North 24 and that depreciation of the fuel trucks shouldn't matter. Operations Manager John Hanna stated that TITAN offered \$5,000 for each fuel truck and that if Pitt Greenville Airport goes with the lease agreement then the first 6 months are free. Hanna stated that a 5-gallon truck is \$313,000 per truck but the ROI doesn't compare for a new Avgas truck. Rehab on the current fuel trucks are due between January and February of next year. The Board requested that Hanna get quotes and have them ready at the next Board meeting.

Vice-Chairman Michael Overton stated that Pitt Greenville Airport can buy a truck not from TITAN but still use TITAN fuel and would like Hanna to look into 3-year leases instead of 5-year. The Board decided to keep the current Avgas truck and a motion to approve a 3-year lease at \$2,800 for the 5k Jet-A truck was made by Vice-Chairman Michael Overton, seconded by Craig Goess. Motion was unanimous, motion carried, and approved.

Attorney Dave Silver requested, and received, direction on details to include in the drafting of a formal policy statement for Pitt Greenville Airport's Tenant Improvement Allowance Program, specifically the proposed end date of the program and the types of improvements included within the program.

Operations Manager John Hanna gave an update on the USDA space. The USDA will be using the office space in the old fire house for Wild Life services for the next 10 years.

### Finance Report

Finance Manager April Cannon stated that the Pitt Greenville Airport is still operating at a \$60,000-\$80,000 loss. Cannon stated that she transferred \$393,338.14 from the Money Market Account to the Operational Account to cover current operational expenses. The Auditor from Martin & Starnes will attend the next Board meeting to present the Audit. Transfer to move funds around to balance current operations will be brought to the November board meeting. Chairman Mayo stated that the Finance Consultants will bring the strategies and reports they have been working on to the November or December Board meeting. John Banks asked about the funds for the property that was once in an account. Cannon stated that those funds were moved by the Airport Board about a year ago to cover expenses for Operations. Cannon also stated that the drop off point of financials is still estimated to be the end of the fiscal year. The Board asked if there were any tenants who were behind on their bill, Cannon responded currently Dillon's Aviation, Flight Management, and Go Air are currently the only tenants who are outstanding on their bills. The board was provided an accounts receivable aging report on all tenants as requested.

### Parking Booth

Vice-Chairman Michael Overton asked about the parking booth screen. Operations Manager John Hanna stated that the screen recently went out and it cost \$4,000-\$5,000 to fix. The parking booth system only goes out during power and generator outages. Hanna stated that the Designa system Pitt Greenville Airport has is becoming obsolete and a new system is \$40,000. Vice-Chairman Michael Overton requested that

Hanna to price out a new system. John Banks requested that the airport staff talk with other airports to see what type of systems are being used. A motion to approve the \$5,000 fix was made by John Banks, seconded by Vice-Chairman Michael Overton. Motion was unanimous, motion carried, and approved.

Executive Director Bill Hopper let the Board know that if they wanted to join the Runway 5K to let airport staff know to get signed up.

Executive Director Bill Hopper stated that First Class Bistro is only open for catering and will officially close at the end of the month.

Adjourn

Chairman Mayo asked if there were any further discussions or questions, with no one coming forward Chairman Mayo called the October 15, 2025 Pitt Greenville Airport Authority Board meeting adjourned.

Respectfully,

Cidni Mils

Administrative Assistant
