Subject: Pitt Greenville Airport Hosts Groundbreaking for Five Corporate Aircraft Hangars

The Pitt Greenville Airport Authority is excited to be underway with the construction of five hangars to house corporate aircraft. The airport will host a groundbreaking ceremony, Thursday, June 30, 2022 at 9:00 AM at the construction site located near the airport entrance on 400 Airport Drive, Greenville, NC 27834. The hangars are scheduled for completion February, 2023.

Four hangars will be approximately 12,000 square feet and capable of housing the largest Gulfstream aircraft to include the G-700 and G-800. The fifth hangar will be 6,400 square feet and capable of housing up to a Cessna Citation Latitude business jet. The project is funded with CARES Act funding provided by the Federal Aviation Administration. Engineering services and construction oversight is provided by Talbert & Bright, Inc. of Wilmington, NC and Dunn & Dalton of Kinston, NC are the architects. The contractor is Farrior & Sons of Farmville, NC.

“There is strong demand for hangars to house corporate aircraft. These types of aircraft are critical to the growth and economic vitality of Pitt Greenville Airport and Eastern North Carolina”, says Bill Hopper, Pitt Greenville Airport Executive Director. “Attracting based corporate aircraft is the largest opportunity for growth at Pitt Greenville Airport. These new hangars will be the catalyst for attracting that type of activity.”

“We are excited to add these hangars. The additional hangars will greatly enhance our capacity to attract new corporate aircraft tenants that will further stimulate commerce in our community. The typical corporate hangar tenant tends to increase overall economic activities in numerous ways such as opening new businesses and expanding existing businesses that, create more jobs, enhances the property tax base with minimal local investment, all while using other billable airport services that increases PGV revenues”, says Eric Clark, Chairman of the Pitt Greenville Airport Authority. “This investment will greatly benefit the airport and our region of Eastern North Carolina.”

Attached is a single-page brochure showing a conceptual of the hangars as seen from Memorial Drive and a layout of the hangars.
