

PGV MONTHLY

JUNE 2025

BIGGEST NEWS THIS MONTH

North 24 Project
Runway 8/26
FAA Certification Inspection
Perimeter Fence Replacement

FRIENDLY REMINDER: HURRICANE SEASON

June 1st marks the beginning of hurricane season. We encourage everyone to make sure you have a plan in place for you and your families during this turbulent time of year.

UPCOMING PROJECTS

FAA CERTIFICATION INSPECTION

The FAA will be onsite this July to conduct its annual certification inspection of PGV. The FAA inspector will be onsite for approximately two days and do a day inspection, a night inspection, an inspection of training records, and also evaluate the airport's responses for aircraft emergencies. This is probably the busiest two-days every year for the airport's operations and maintenance staff.

NORTH 24 UPDATE

This project expands the airport's footprint for further aeronautical development. It is a 24-acre grass site north of Runway 8/26 and east of Runway 2/20. There is no space to build hangars or other aeronautical structures in the present footprint and when completed, the North 24 will be a shovel ready site for this type of development. When complete, there will be a paved taxilane connecting the North 24 to Taxiway A, an access road from Old Belvoir Highway, and utilities will be provided to the area. The Airport's consulting engineer, McFarland Johnson, Inc., is presently doing required environmental work in the area and preparing design plans and specifications to move toward the construction phase. The project is estimated at \$4,000,000 and will be funded approximately 50%/50% by each FAA and NCDOT, Aviation. Construction is anticipated to begin early 2026 and completed summer, 2026.

UPCOMING PROJECTS

CONTINUED

PERIMETER FENCE REPLACEMENT

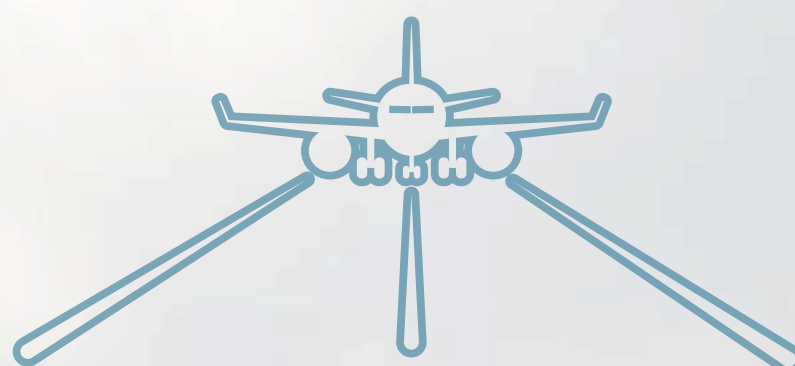

The FAA will fund 95% and NCDOT, Aviation will fund 5% of a \$1.3M project to replace perimeter fence in two sections. This is the first phase of what will be a \$3M perimeter fence and perimeter road replacement. It will enhance security and wildlife control. The present six foot high fence will be replaced with an eight foot high fence with features designed to prevent entry of wildlife to the airfield. The remaining \$1.7M will be done in 2027.

RUNWAY 8/26

The airport has applied for an FAA grant in the amount of approximately \$600,000 to rehabilitate Runway 8/26. The grant will cover 95% of the funds needed for the design phase and will be done by McFarland Johnson. The other 5% will be funded by NCDOT, Aviation. The grant is anticipated for award this summer. Construction is approximately \$6.5M and is anticipated to take place early 2027. The runway width will be reduced to 75-feet when completed. The airport has been working with the FAA for over six years to fund the project and it is finally coming to fruition!

EVENTS

SPRING TENANT GATHERING UPDATE

Fifteen tenants were able to attend the gathering on May 22, 2025. We enjoyed the opportunity to get together and discuss aviation and PGV as a whole. John Hanna gave a presentation on the projects we have in progress at PGV. We plan to host a gathering every six months to bring our tenants together and keep everyone informed.

TOURS

We offer tours at any time of the year, but we're always kicking it into high gear during the summer months. Contact us to book a tour and bring your friends and family to check out PGV if they're interested in seeing some of the impressive aircraft and learn the behind-the-scenes of an airport!

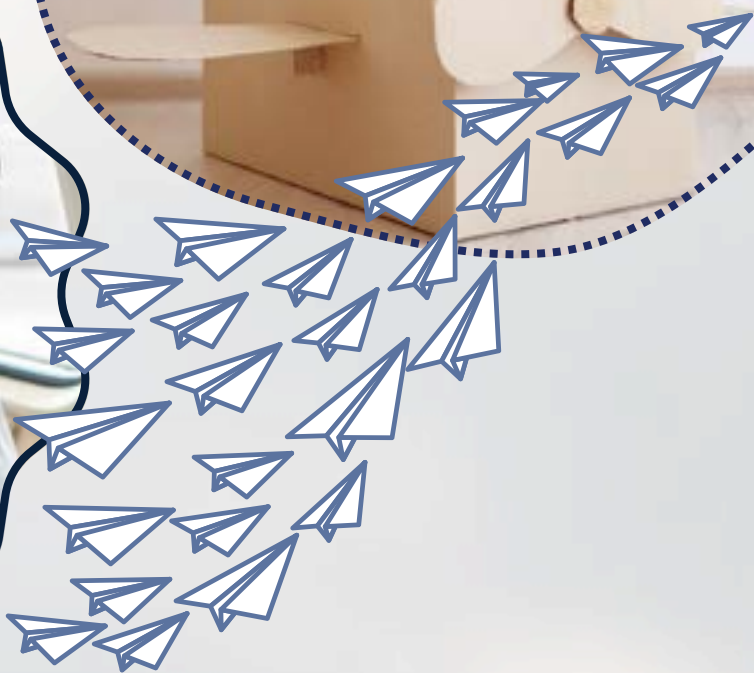

INTERNATIONAL YOUNG EAGLES DAY

Since June 11, 1994, every year on the second Saturday of June, the Experimental Aircraft Association (EAA) aims to encourage their younger members between the ages of 8 and 17 to participate in their Young Eagles Program.

Children are offered free rides on airplanes in hopes of nurturing their passions to fly into a potential career. Since the program was established, the EAA provided over 2 million flights to the Young Eagles.

HAPPY FATHER'S DAY!

FATHER LOVE

APRIL CANNON

As a child you find a hero in many people as you grow up. Not until you grow older do you realize their true strengths and impacts.

One person is a Dad. Dads may come in many forms. A dad is not based on just the blood of a father but the sweat, smiles, laughs and tears of a dad that flow thru each day of love they show.

To be by your side on your greatest days and behind you to lift you up when you feel like your falling backwards. Playing as a child, turned into loving guidance as an adult.

May their light of their hidden bravery raise your memories to realize the sacrifice your father or father figure puts fourth. A dad's love holds a special place in your heart, to show them how much you have accomplished in your life, the want for them to be proud of you, the need to know they love you, the connection that no matter what happens in life you feel it.

Until that day they are no longer able to be there, then many will realize your dad was always proud from that first single breath you took. It takes a look back, a song, a story, a glimpse to realize that special man in your life will always be a part of something you hold close. A part of them created the person you are today.

Mine was my dad, who even during his last breath was the strongest man I never knew. May every man who is celebrated as a Father have an amazing blessed Father's Day.

HAPPY JUNETEENTH!

In commemoration of Juneteenth, we are happy to celebrate African Americans that have made significant contributions to aviation. PGV is fortunate to have Elizabeth City State University just a two-hour drive to the northeast (approximately 35 minutes flight time!). ECSU is a recognized Historically Black College or University with a robust aviation curriculum. Charles O-Brien Eaton, PGV's Operations Chief, is an alum of ECSU and also proudly serves in the North Carolina Army National Guard. Charles has his private, commercial and instrument ratings. We proudly salute Charles' service to our country, and proud to have Charles on the PGV team!

GREENVILLE, NC CELEBRATIONS

JUNETEENTH JAMBOREE

June 22, 2025 4pm - 9pm

At the Greenville Toyota Amphitheater at the Greenville Town Common with live music, food, bounce-houses, vendor fair, fireworks, and so much more!

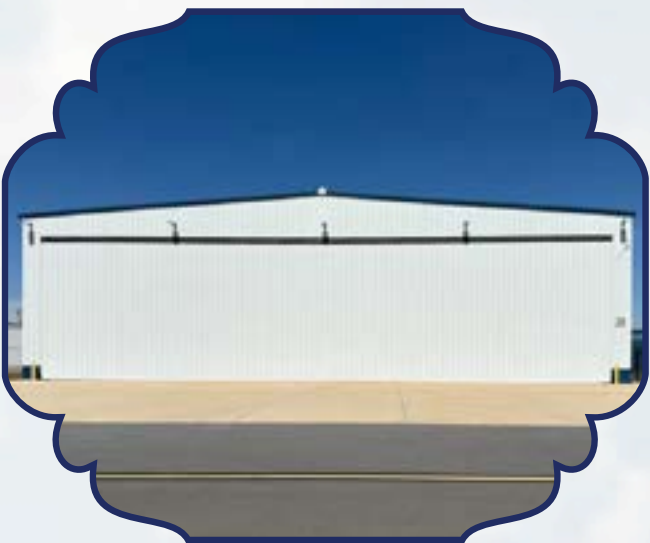

AFRICAN AMERICAN CULTURAL TRAIL OF GREENVILLE-PITT COUNTY

June 22, 2025 12pm, 2pm, 4pm

Experience the history of Greenville's early medical professionals, educators, leaders, and residents.

HANGARS FOR RENT

HANGAR #30

6,400 sq.ft. (80' wide x 80' deep)

Door: 70' wide x 27' high

Additional Features: A restroom in one corner

Aircraft Capacity Example:
Challenger 650

HANGAR #31

13,200 sq.ft. (120' wide x 110' deep)

Door: 110' wide x 28' high

Additional Features: 1,200 sq.ft. walled off area in one corner with a restroom and can be finished by the tenant to suit

Aircraft Capacity Example: G-650

HANGAR # 22

11,250 sq.ft. (150' wide x 75' deep)

Door: 120' wide x 24' high

Additional Features: Attached finished office area.

Aircraft Capacity Example: Multiple Cessna Latitudes and/or Sovereigns.

HANGAR #24

13,200 sq.ft. (120' wide x 110' deep)

Door: 110' wide x 28' high

Additional Features: A finished office area in one corner that has offices, storage and restroom with a shower.

Aircraft Capacity Example: G-650

HAPPY BIRTHDAY TO EVERYONE IN JUNE!

THIS MONTH'S HOLIDAYS

World Environment Day	June 5
D-Day	June 6
World Oceans Day	June 8
International Young Eagles Day	June 14
Father's Day	June 15
Juneteenth	June 19
